## REFERENCES

Provided upon request.

## OBJECTIVE

An internship, where I can contribute as a part of a team, further develop my comprehension of the software industry and gain valuable experience in the process.

## EXPERIENCE & EMPLOYMENT

### PRODUCT FORGE 4 | PRODUCT DEVELOPMENT EVENT

23-26 October 2015 | Edinburgh, UK

#### Winner Team Member

Collaborated in a team of 5 over a weekend to produce and present a product on a theme of digital participation, given by the Digital Directorate of the Scottish Government.

Worked on the development of an Android demo application, which represents point of sale for the team's product.

Currently, the concept is being developed further. The team is working in collaboration with the Scottish Government and seeking support from various organizations to secure funding and find mentors to launch non profit start up organization.

### HAPPY BAR & GRILL | WAITING STAFF- PAID SUMMER JOB

May 2015 – Aug 2015 | Burgas, Bulgaria

Responsible for the customer's satisfaction, while keeping and improving the overall image of the brand.

Developed greatly my skills in team work, understanding and functioning as a part of a team.

### HAMALOGIKA | INTERNSHIP

Jan 2015 – April 2015 | Burgas, Bulgaria

Worked as a part of a team responsible for the English version of the company's sites.

## COMMUNITY SERVICE

### INTERACT BURGAS-PYRGOS | MEMBER

September 2013 – May 2015 | Burgas, Bulgaria

Actively participated in organizing and conducting events revolving around the community.

Done voluntary charitable work including working with people with disabilities and visiting nursing homes and orphanages.

### INTERNATIONAL MATHEMATICS COMPETITION 2013 |

#### VOLUNTEER GUIDE

June 2013 | Burgas, Bulgaria

Contributed to the organizing and conducting of the Bulgaria International Mathematics Competition (Burgas 2013). Volunteered as a guide for a mathematics team from Sri Lanka. The effort was distinguished with a certificate expressing the special gratitude of the mayor.

## EXTRACURRICULAR ACTIVITIES

### GAME DEVELOPMENT

My interest in games resulted in a self-driven project- a 2D video game engine programmed in Java. Created with the guidance of Internet tutorials, the project helped me enhance my programming skills and improved my problem solving.

### FITNESS & NUTRITION

Profound interest in fitness training and the effects of nutrition on training individuals.
